

New Vandal Resistant Readers

MVR1 proximity & keypad reader

- Vandal resistant solid aluminium construction
- Neat design, wipe clean surface
- Waterproof to IP68
- HID proximity, reads all standard HID proximity card types
- Ceramic Piezo touch sensitive keypad, no moving parts
- Card and keypad can be used independently
- Printing is laser etched and will not wear off

Multilink are leading the way in access control design and installation. Our new range of vandal resistant readers are a huge step forward in the access control market place. Where these are combined with touch sensitive piezo technology keypads they can provide a higher degree of security than ever before.

MVR3 magnetic swipe card & keypad reader

- Vandal resistant solid aluminium construction
- Neat design, wipe clean surface
- Waterproof to IP67
- Track 2 magnetic card reader
- Ceramic Piezo touch sensitive keypad, no moving parts
- Card and keypad can be used independently
- Printing is laser etched and will not wear off

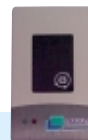

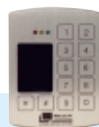

the best in access control

Technical Data

Reader Name	MVR1	MVR2	MVR3
Reader Type	Proximity + combined keypad	Proximity	Magnetic swipe + combined keypad
Protocol/Output	Wiegand	Wiegand	Clock and Data Track 2
Compatibility	HID Prox cards & fobs	HID Prox cards & fobs	Track 2 HiCo 75 BPI magnetic cards
Connection lead	Pigtail, 6 conductor	Pigtail, 6 conductor	Pigtail, 6 conductor
Dimensions	120 x 90 x 20mm	115 x 70 x 20mm	140 x 74 x 33mm
Power	12 VDC	12 VDC	12 VDC
Current	150mA	150mA	150mA
Environment	IP68	IP68	IP67
Read Range	50mm - 75mm	50mm - 75mm	N/A
Construction	Solid Aluminium	Solid Aluminium	Solid Aluminium
Sounder	Piezo	Piezo	Piezo
Keyboard	Ceramic Piezo	N/A	Ceramic Piezo
Status lamp ON	LED	LED	LED
Status lamp, card pass	LED	LED	LED
