

Toplock 3 JX 2000 Networkable Control Systems

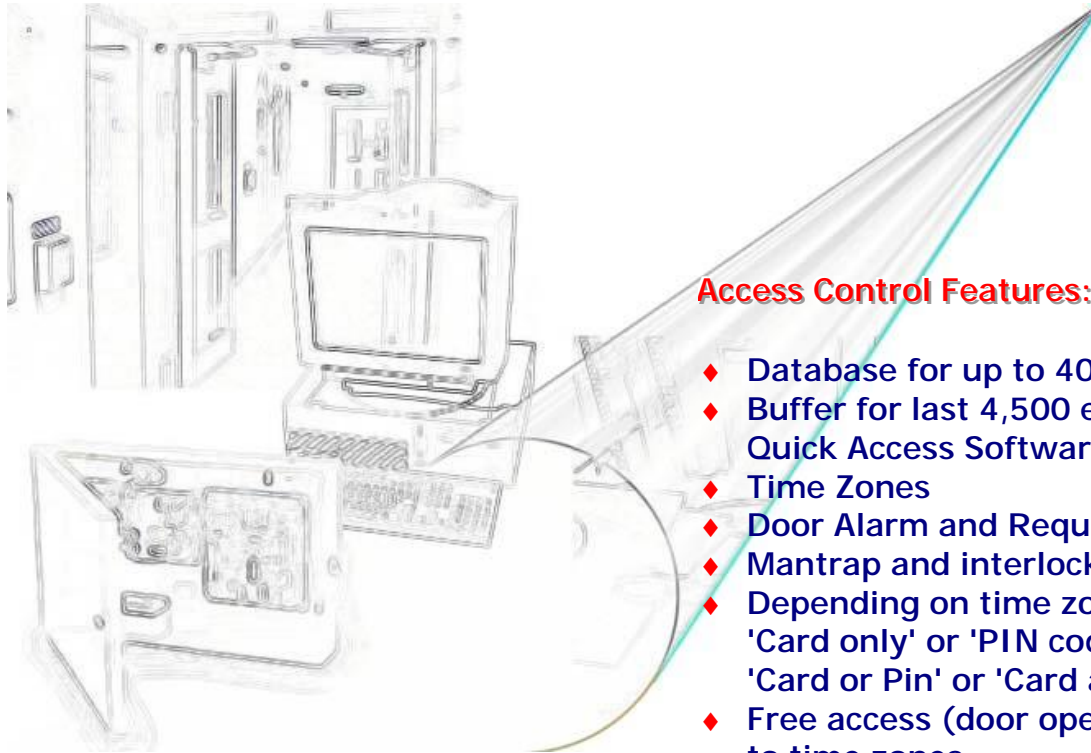

Controller Features

- ◆ Interfaces for 4 card readers.
- ◆ (2 doors entrance/exit).
- ◆ Networkable, can be connected to 15 slave controllers, controlling up to 32 doors from one master keypad
- ◆ ANY technology, selectable by onboard switch.
- ◆ Supported reader technologies: Magnetic, Proximity, Wiegand, Barcode, Touch, Hands Free, Biometrics, Key Fobs, Keypad, Smart card and many more).
- ◆ TCP/IP interface option, direct connection to a network. Control the system from anywhere on the network including over the internet.
- ◆ 3.5 amp dual output power supply as standard.
- ◆ Can be connected via an RS232 interface to a Windows computer running Quick Access software.

- ◆ 8 alarm inputs.
- ◆ 4 output relays.
- ◆ Internal (Real Time Clock) RTC.
- ◆ Indicating on-circuit LED's for the inputs, relays, and communication status.
- ◆ Memory capacity up to 40,000 cardholders. (1/2 Mbytes of Cmos memory protected by a Lithium cell.)
- ◆ Improved protections: 4-layer boards enable better performance in RFI environments; improved protection for communication lines and lightning.
- ◆ Two separate regulators prevent electrical noise at the card reader's cables to effect the system performance; etc.

Toplock 3 JX 2000 Network Control Systems

Access Control Features:

- ◆ Database for up to 40.000 Users
- ◆ Buffer for last 4,500 events (needs Quick Access Software to download)
- ◆ Time Zones
- ◆ Door Alarm and Request to Exit
- ◆ Mantrap and interlock control
- ◆ Depending on time zones: access by 'Card only' or 'PIN code only' or 'Card or Pin' or 'Card and PIN'.
- ◆ Free access (door open) according to time zones
- ◆ Local Anti Pass-back

Alarm Monitoring Features:

- ◆ 80 time zones for alarm and Events
- ◆ Door Alarm
- ◆ Alarm delayed
- ◆ Total control of relays from host

Communication Features:

- ◆ RS485, RS232
- ◆ Proprietary Protocol or Modbus Protocol
- ◆ Programmable Encryption
